Summary of the Event	<p>Red Ribbon Club, B. H. College, Howly has organised a Blood Donation Camp to encourage youths, students and teacher for the noble cause of the society. 32 students and 5 teacher have joined the campaign. More than 60 students and teacher have checked their haemoglobin level. But due to high allergy level, blood already donated and the cycle did not completed 3 months yet, high blood pressure, low blood pressure, sugar level, less than 12.6 haemoglobin level; some of the donors were unable to donate blood.</p> <p>This type of Campaign is very essential for the College students as well as the teachers because we all are born not only for ourselves but also to do something for the society at large.</p>
